

Ayesha Lubna

AI/ML Expert — Data Science Engineer

Bengaluru, India — +91 82177 39973 — ayeshalubna6677@gmail.com

[LinkedIn](#) — [GitHub](#) — [Portfolio](#)

Professional Summary

AI/ML Expert & Data Science Engineer skilled in Python, SQL, Machine Learning, Deep Learning, NLP, and Data Visualization. Experienced in building predictive models, designing ML/AI pipelines, implementing NLP solutions, and deploying end-to-end AI/ML workflows for actionable business insights. Proficient in feature engineering, model evaluation, data preprocessing, and dashboard integration. Seeking challenging roles in AI, Machine Learning, and Data Science to deliver impactful business solutions.

Technical Skills & Tools

Programming & Data Science: Python (pandas, NumPy, scikit-learn), R, SQL (joins, window functions)

Machine Learning & AI: Regression, Classification, XGBoost, LightGBM, CNNs (TensorFlow, PyTorch), NLP (Hugging Face)

Analytics & BI: Power BI (DAX, dashboards), Tableau, Advanced Excel (Pivot, Power Query), Looker Studio

Data Engineering / MLOps: ETL, Apache Spark, Airflow, Docker, MLflow, AWS (S3, SageMaker), Flask/Streamlit

Tools & Collaboration: Git/GitHub, Jupyter, VS Code, Heroku, Jenkins

Professional Experience

Artificial Intelligence Consultant Intern – Rubixe.ai (Jan 2024 – Mar 2024)

- Built predictive models using Python and ML algorithms; integrated with Power BI dashboards to generate actionable insights, achieving simulated **12% churn reduction**.
- Automated SQL data pipelines and reporting, reducing data prep time by 30%.
- Collaborated with stakeholders to translate business problems into measurable AI/ML solutions.

DevOps Intern – Seventh Sense Solutions (Oct 2023 – Nov 2023)

- Implemented CI/CD workflows using Jenkins and Docker, improving deployment reliability to 99%.
- Automated build-triggering via GitHub webhooks, reducing manual errors and deployment time.

Soft Skills Intern – Seventh Sense Talent Solutions (2022)

- Completed corporate communication and leadership training, enhancing stakeholder presentation and cross-team collaboration skills.
-

Projects

Telecom Churn Analysis – Python, Machine Learning, Power BI, SQL

- EDA, feature engineering, and predictive modeling using Random Forest/XGBoost (**88% accuracy**).

- Built interactive dashboards in Power BI for retention KPIs; integrated ML model predictions for business decisions.
- Conducted cohort analysis and visualizations to simulate **12% churn reduction**.

E-Commerce Customer Segmentation – Python, SQL, Tableau, ML

- Performed RFM segmentation on 200k+ transactions; engineered features for clustering and classification.
- Designed Tableau dashboards and recommendation triggers; achieved **15% uplift** in targeted marketing conversions.
- Built end-to-end pipeline from feature engineering to automated dashboard delivery.

Flight Price Forecasting – Python, Regression, Time-Series, Tableau

- Developed regression and time-series models for flight pricing; engineered route/date features.
- Visualized trends, seasonality, and anomalies in Tableau; automated weekly Python/SQL forecasting pipeline.
- Delivered a repeatable forecasting workflow to enable data-driven pricing decisions.

AI / ML Applications – Python, NLP, Deep Learning (TensorFlow, PyTorch)

- AI Content Writing App using Hugging Face API; deployed with Flask web UI.
- Skin Disorder Prediction using CNNs (ResNet50, VGG16) achieving **92% classification accuracy**; deployed with Streamlit.
- Implemented CI/CD pipelines for model training and deployment for reproducible and production-ready solutions.

Sales Dashboard (2025) – Python, SQL, Tableau

- Automated KPI scorecards and drill-down views; reduced manual reporting by **40%**.
 - Built SQL ETL pipelines for daily sales aggregation and faster monthly reporting.
 - Integrated real-time monitoring for proactive business insights and decision-making.
-

Education

B.Tech, Information Science and Engineering Guru Nanak Dev Engineering College (VTU)
 2021 – 2025
 Percentage: 84.55%

Certifications & Achievements

- AI Expert — DataMites
- Data Science Engineer — DataMites
- AI Assessment (Gold) — NASSCOM FutureSkills Prime
- ML with Python — IBM
- Python Programming — Infosys
- Job Simulations — Deloitte & BCG (Forage)
- Organizer & Paper Presenter — Intl Conference on AI/IoT/ML (2024)
